- Optimization & SEO
- Digital marketing
- SEO copywriting

OUR STRENGTHS

SIMPLICITY

Translation & localization project management processes are made easier with our client portal. You can send and receive files safely, request and accept quotes, keep track of projects, costs, or bills.

ATTRACTIVENESS

Our IT tools spot repeated content in manuals, software, or any document to localize, therefore you get large discounts. Based on the volume of localized words and time, localization costs keep decreasing.

QUALITY & EXPERTISE

We follow strictly the international quality standards for management, hiring and quality control processes in the translation & localization sector: ISO 9001 et ISO 17100.
